

Table of Contents

Executive Summary..... ES-1

Chapter 1 Planning Area Description1-1

1.1 Introduction..... 1-1

1.2 Senate Bill 1 and Senate Bill 2 1-5

1.3 Regional Water Planning Area..... 1-5

 1.3.1 Population 1-6

 1.3.2 Economic Activities 1-6

1.4 Wholesale Water Providers..... 1-10

 1.4.1 Canadian River Municipal Water Authority (CRMWA) 1-10

 1.4.2 City of Amarillo..... 1-11

 1.4.3 City of Borger 1-11

 1.4.4 City of Cactus..... 1-11

 1.4.6 Greenbelt Municipal and Industrial Water Authority (Greenbelt MIWA) 1-11

 1.4.7 Palo Duro River Authority (PDRA) 1-12

1.5 Sources of Water 1-12

 1.5.1 Groundwater Regulation..... 1-12

 1.5.2 Aquifers 1-15

 1.5.3 Springs..... 1-22

 1.5.4 Surface Water..... 1-22

 1.5.5 Reuse Supplies..... 1-27

1.6 Current Water Users and Demand Centers..... 1-29

 1.6.1 Municipal Use..... 1-29

 1.6.2 Industrial Use 1-30

 1.6.3 Agricultural Use..... 1-32

1.7 Natural Resources 1-37

 1.7.1 Natural Region..... 1-37

 1.7.2 Regional Vegetation 1-39

 1.7.3 Regional Geology..... 1-41

 1.7.4 Mined Resources..... 1-41

 1.7.5 Soils 1-44

 1.7.6 Wetlands 1-46

 1.7.7 Aquatic Resources 1-47

 1.7.8 Wildlife Resources..... 1-48

1.8 Threats and Constraints to Water Supply 1-49

 1.8.1 Water Loss and Water Audit 1-51

 1.8.2 Drought of Record..... 1-52

 1.8.3 Drought Preparedness and Response..... 1-52

1.9 Water-Related Threats to Agricultural and Natural Resources..... 1-53

1.10 Summary of Existing Local and Regional Water Plans..... 1-54

1.11 Existing Programs and Goals 1-55

 1.11.1 Federal Programs 1-55

1.11.2	Interstate Programs	1-57
1.11.3	State Programs.....	1-58
Chapter 2	Current and Projected Population and Water Demand.....	2-1
2.1	Introduction.....	2-1
2.2	Population	2-2
2.3	Historical Water Use and Projected Water Demand.....	2-5
2.4	Municipal Water Demands.....	2-8
2.5	Industrial Water Demands	2-10
2.5.1	Manufacturing.....	2-10
2.5.2	Steam Electric Power	2-12
2.5.3	Mining	2-12
2.6	Agricultural Water Demands	2-14
2.6.1	Irrigation Water Demands.....	2-14
2.6.2	Livestock Water Demands.....	2-16
2.6.3	Uncertainty in Agricultural Demand Projections	2-17
2.7	Wholesale Water Providers.....	2-18
2.7.1	City of Amarillo.....	2-18
2.7.2	Greenbelt Municipal and Industrial Water Authority (Greenbelt MIWA)	2-19
2.7.3	Canadian River Municipal Water Authority (CRMWA)	2-20
2.7.4	City of Borger	2-20
2.7.5	City of Cactus.....	2-21
Chapter 3	Evaluation of Regional Water Supplies	3-1
3.1	Water Supplies by Source.....	3-1
3.1.1	Groundwater Regulation in Texas and Region A	3-1
3.1.2	Groundwater Supplies.....	3-2
3.1.3	Water Supply Reservoirs	3-10
3.1.4	Run of the River Supplies	3-17
3.1.5	Other Potential Surface Water Sources	3-17
3.1.6	Reuse Supplies.....	3-21
3.1.7	Local Supplies	3-23
3.1.8	Summary of Water Supplies in the PWPA.....	3-23
3.2	Currently Developed Supplies to Water User Groups.....	3-26
3.2.1	Allocation of Ogallala Supplies to Water Users.....	3-26
3.2.2	Wholesale Water Provider Supplies and Allocation to Users	3-30
3.2.3	Imports and Exports	3-30
3.2.4	Summary of Developed Supplies to Water User Groups	3-32
Chapter 4	Identification of Water Needs	4-1
4.1	Introduction	4-1
4.2	First Tier Water Needs Analysis	4-1
4.2.1	Identified Needs for Water User Groups	4-5
4.2.2	Identified Needs for Wholesale Water Providers	4-8
4.2.3	Summary of First Tier Water Needs.....	4-9

4.3	Second Tier Water Needs Analysis	4-9
4.3.1	Summary of Second Tier Water Needs for Water User Groups	4-9
4.3.2	Summary of Second Tier Water Needs for Wholesale Water Providers	4-9
Chapter 5	Water Management Strategies.....	5-1
Subchapter 5A	Identification of Potentially Feasible Water Management Strategies.....	5-2
5A.1	Water Management Strategy Types	5-2
5A.1.1	Water Conservation and Drought Management	5-3
5A.1.2	Wastewater Reuse	5-4
5A.1.3	Expanded Use of Existing Supplies.....	5-4
5A.1.4	New Groundwater Development	5-5
5A.1.5	Brush Control	5-6
5A.1.6	Precipitation Enhancement	5-7
5A.2	Evaluation Procedures	5-7
5A.3	Strategy Development Assumptions.....	5-9
5A.3.1	Strategy Costs	5-9
Subchapter 5B	Water Conservation.....	5-11
5B.1	Municipal Conservation	5-11
5B.1.1	Identification of Potentially Feasible Conservation BMPS.....	5-12
5B.1.2	Recommended Municipal Conservation Strategies.....	5-13
5B.1.3	Evaluation of Municipal Conservation Strategies.....	5-15
5B.1.4	Municipal Conservation Summary.....	5-15
5B.2	Agricultural Water Conservation	5-17
5B.2.1	Irrigation Strategies	5-17
5B.2.2	Methodology.....	5-23
5B.2.3	Recommended Combination	5-25
5B.2.4	Additional Irrigation Supply from Groundwater Wells.....	5-33
5B.3	Water Conservation Plans.....	5-33
5B.4	Other Conservation Recommendations	5-35
Subchapter 5C	Water Management Strategies for Wholesale Water Providers.....	5-36
5C.1	Canadian River Municipal Water Authority (CRMWA)	5-36
5C.2	City of Amarillo.....	5-42
5C.3	City of Borger	5-49
5C.4	City of Cactus.....	5-52
5C.5	Greenbelt Municipal and Industrial Water Authority.....	5-56
5C.6	Palo Duro River Authority (PDRA).....	5-59
Subchapter 5D	Water Management Strategies for Water Users by County	5-62
5D.1	Armstrong County.....	5-62
5D.2	Carson County.....	5-64
5D.3	Childress County	5-67
5D.4	Collingsworth County.....	5-68

5D.5	Dallam County.....	5-71
5D.6	Donley County.....	5-76
5D.7	Gray County	5-77
5D.8	Hall County.....	5-81
5D.9	Hansford County	5-87
5D.10	Hartley County	5-92
5D.11	Hemphill County.....	5-93
5D.12	Hutchinson County.....	5-94
5D.13	Lipscomb County.....	5-99
5D.14	Moore County	5-102
5D.15	Ochiltree County	5-109
5D.16	Oldham County	5-111
5D.17	Potter County.....	5-112
5D.18	Randall County	5-117
5D.19	Roberts County.....	5-124
5D.20	Sherman County.....	5-125
5D.21	Wheeler County	5-126
Chapter 6 Impacts of the Regional Water Plan.....		6-1
6.1	Potential Impacts of Water Management Strategies on Key Water Quality Parameters.....	6-2
6.1.1	Water Conservation	6-3
6.1.2	Reuse.....	6-4
6.1.3	Voluntary Transfers.....	6-4
6.1.4	New and/or Expanded Use of Groundwater Resources	6-4
6.1.5	Brush Control	6-5
6.1.6	Conjunctive Use.....	6-5
6.1.7	Advanced Treatment.....	6-5
6.1.8	Precipitation Enhancement.....	6-6
6.2	Impacts of Moving Water from Agricultural and Rural Areas	6-6
6.3	Socio-Economic Impacts of Not Meeting Water Needs	6-6
6.4	Other Potential Impacts	6-6
6.5	Consistency with the Protection of Water Resources.....	6-6
6.5.1	Water Conservation	6-7
6.5.2	Wastewater Reuse	6-7
6.5.3	Voluntary Transfers.....	6-7
6.5.4	New or Expanded Use of Groundwater	6-8
6.5.5	Brush Control	6-8
6.5.6	Conjunctive Use.....	6-8
6.5.7	Advanced Treatment.....	6-8
6.5.8	Precipitation Enhancement.....	6-8
6.6	Consistency with Protection of Agricultural Resources	6-8
6.7	Consistency with Protection of Natural Resources	6-9
6.7.1	Threatened and Endangered Species.....	6-9
6.7.2	Parks and Public Lands	6-9
6.7.3	Energy Reserves	6-10

6.8	Consistency with Protection of Public Health and Safety	6-10
6.9	Consistency with State Water Planning Guidelines	6-10
6.10	Summary of Protections of State’s Resources	6-11
Chapter 7	Drought Response Information, Activities, and Recommendations.....	7-1
7.1	Drought Conditions and Drought of Records	7-1
7.1.1	Drought of Record in the Panhandle Water Planning Area	7-2
7.1.2	Impact of Drought on Water Supplies	7-6
7.2	Current Drought Preparations and Response	7-8
7.2.1	Drought Preparedness	7-8
7.3	Existing and Potential Emergency Interconnects	7-10
7.3.1	Existing Emergency Interconnects	7-10
7.3.2	Potential Emergency Interconnects	7-10
7.4	Emergency Responses to Local Drought Conditions or Loss of Municipal Supply	7-11
7.4.1	Emergency Responses to Local Drought Conditions.....	7-12
7.5	Region-Specific Drought Response Recommendations and Model Drought Contingency Plans.....	7-18
7.5.1	Drought Trigger Conditions for Surface Water Supply	7-18
7.5.2	Drought Trigger Conditions for Run-of-River and Ground Water Supply	7-19
7.5.3	Model Drought Contingency Plans	7-21
7.6	Drought Management Strategies	7-21
7.7	Other Drought Recommendations	7-21
7.7.1	Texas Drought Preparedness Council and Drought Preparedness Plan.....	7-21
7.7.2	Other Drought Recommendations	7-22
Chapter 8	Regulatory, Administrative and Legislative Recommendations.....	8-1
8.1	Unique Stream Segments	8-1
8.2	Sites of Unique Value for the Construction of Reservoirs.....	8-3
8.3	Legislative Recommendations	8-4
8.3.1	Regulatory Issues	8-5
8.3.2	Legislative Issues	8-5
8.4	Recommendations for Future State Water Plans.....	8-6
Chapter 9	Water Infrastructure Funding Recommendations.....	9-1
9.1	Introduction	9-1
Chapter 10	Plan Adoption and Public Participation.....	10-1
10.1	Panhandle Water Planning Group.....	10-1
10.2	Panhandle Water Planning Group Public Information and Education Commitment.....	10-3
10.3	Surveys.....	10-4
10.4	Panhandle Water Planning Group Functions	10-5
10.5	Panhandle Water Planning Group Meetings.....	10-5
10.6	Panhandle Water Planning Group Committee Activities	10-5
10.7	Interregional Coordination	10-6
10.8	Local Participation in the Regional Water Planning Process.....	10-7

10.9	Plan Adoption Process.....	10-7
10.9.1	Public Hearing	10-7
10.9.2	Initially Prepared Plan Adoption	10-7
10.9.3	Response to Comments	10-8
10.9.4	Final Regional Water Plan Adoption	10-8
10.10	Conclusion	10-8
Chapter 11	Implementation and Comparison to Previous Regional Water Plan	11-1
11.1	Introduction	11-1
11.2	Differences Between Previous and Current Regional Water Plan.....	11-1
11.2.1	Population Projections	11-1
11.2.2	Water Demand Projections.....	11-2
11.2.3	Drought of Record and Hydrologic Modeling Assumptions.....	11-5
11.2.4	Groundwater Availability	11-6
11.2.5	Surface Water Availability.....	11-9
11.2.6	Existing Water Supplies of Water Users.....	11-9
11.2.7	Identified Water Needs.....	11-11
11.2.8	Altered Water Management Strategies.....	11-14
11.2.9	No Longer Considered Water Management Strategies.....	11-14
11.3	Implementation of Previously Recommended Water Management Strategies	11-15
11.3.1	Amarillo	11-15
11.3.4	Borger.....	11-15
11.3.3	CRMWA	11-15
11.4	Conclusion.....	11-15

List of Tables

Table 1-1: Voting Members of the Panhandle Water Planning Group..... 1-3

Table 1-2: Major Cities in the PWPA..... 1-8

Table 1-3: Economic Activities of Counties in the PWPA..... 1-9

Table 1-4: Summary of Policies Affecting Water Quality and Quantity in PWPA..... 1-12

Table 1-5: Ground Water Conservation Districts in PWPA..... 1-15

Table 1-6: Estimated Groundwater Storage Volume of the Ogallala Aquifer in the PWPA 1-19

Table 1-7: Dockum Aquifer Storage and Recharge 1-21

Table 1-8: Individual Water Rights in the PWPA for Permitted and Actual Use..... 1-25

Table 1-9: 2012 303d Listed Segments in the PWPA 1-26

Table 1-10: Reuse Supplies in the PWPA 1-28

Table 1-11: Historical and Projected Municipal Water Use for the PWPA, (ac-ft/yr)..... 1-29

Table 1-12: Water Used by CRMWA Member Cities in the PWPA during 2011..... 1-30

Table 1-13: TWDB Historical and Projected Industrial Water Use for the PWPA (ac-ft/yr) 1-32

Table 1-14: Number of Farms and Acres of Harvested Cropland 1-33

Table 1-15: Historical and Projected Irrigation Water Use for the PWPA (ac- ft/yr)..... 1-34

Table 1-16: Estimates of Livestock Water Use in the PWPA during 2010 1-36

Table 1-17: Historical and Projected Livestock Water Use in the PWPA (ac-ft/yr) 1-37

Table 1-18: Mined Products for Counties in the PWPA..... 1-42

Table 1-19: Physical characteristics of playas in the PWPA..... 1-47

Table 1-20: Threatened and Endangered Species in the PWPA 1-50

Table 1-21: Summary of TWDB Water Loss Audits..... 1-52

Table 2-1: PWPA Population by County from 2010 to 2070..... 2-3

Table 2-2: Projected Water Demands for the City of Amarillo..... 2-19

Table 2-3: Projected Water Demands for Greenbelt MIWA..... 2-19

Table 2-4: Projected Water Demands for CRMWA..... 2-20

Table 2-5: Projected Water Demands for the City of Borger..... 2-21

Table 2-6: Projected Water Demands for the City of Cactus..... 2-21

Table 3-1: Modeled Available Groundwater in the Ogallala/Rita Blanca Aquifer (ac-ft/yr)..... 3-6

Table 3-2: Modeled Available Groundwater in the Seymour Aquifer (ac-ft) 3-8

Table 3-3: Modeled Available Groundwater in the Blaine Aquifer (ac-ft)..... 3-9

Table 3-4: Modeled Available Groundwater in the Dockum Aquifer (ac-ft)..... 3-10

Table 3-5: Available Groundwater in Other Aquifers (ac-ft)..... 3-10

Table 3-6: Descriptive Information of Water Supply Reservoirs in the PWPA 3-12

Table 3-7: Projected Yield and Available Supply of Lake Meredith 3-14

Table 3-8: Projected Yield of Palo Duro Reservoir 3-16

Table 3-9: Projected Yield and Available Supply of Greenbelt Reservoir 3-16

Table 3-10: Total Run of the River Water Rights by County in the PWPA (ac-ft/yr)..... 3-17

Table 3-11: Descriptive Information of Minor Reservoirs in the PWPA 3-19

Table 3-12: Acreage and Estimated Maximum Storage of Playa Lakes in the PWPA..... 3-22

Table 3-13: Direct Reuse in the PWPA (ac-ft/yr) 3-23

Table 3-14: Summary of Local Supplies in the PWPA (ac-ft/yr)..... 3-24

Table 3-15: Summary of Available Water Supplies in the PWPA (ac-ft/yr) 3-25

Table 3-16: Projected Total Production from the Ogallala Aquifer within PWPA (ac-ft/yr)..... 3-28

Table 3-17: Summary of Water Supplies to Wholesale Water Providers3-31

Table 3-18: Summary of Exports and Imports with other Regions (ac-ft/yr) 3-31

Table 3-19: Summary of Groundwater Exports and Imports within the PWPA (ac-ft/yr).....3-32

Table 3-20: Developed Water Supplies to Water User Groups in PWPA (ac-ft/yr)3-33

Table 3-21: Unallocated Water Supplies in PWPA (ac-ft/yr)3-33

Table 3-22: Unallocated Water Supplies in PWPA (ac-ft/yr) 3-34

Table 4-1: Comparison of Supplies and Demands for the PWPA4-2

Table 4-2: Identification of Water Needs by County (acre-feet/year).....4-4

Table 4-3: Decade Need Begins by County and Category.....4-5

Table 4-4: Projected Irrigation Needs in the PWPA (acre-feet/year) 4-6

Table 4-5: Projected Municipal Needs in the PWPA (acre-feet/year)4-7

Table 4-6: Projected Manufacturing Needs in the PWPA (acre-feet/year)4-8

Table 4-7: Projected Needs for Wholesale Providers in the PWPA (ac-ft/yr).....4-9

Table 5A-1: Available Groundwater Supplies for Strategies.....5-5

Table 5A-2: Potential Users of New Groundwater5-6

Table 5A-3: Plant Water Use Rates.....5-7

Table 5B-1: Municipal Water Conservation Savings and Cost by Water User Group.....5-16

Table 5B-2: Possible Water Management Strategies for Reducing Irrigation Demands5-23

Table 5B-3: Estimated Water Savings and Costs for Proposed Conservation Strategies5-25

Table 5B-4: Estimated Water Savings from Irrigation Scheduling by County in the PWPA.....5-26

Table 5B-5: Estimated Water Savings from Irrigation Equipment Changes by County in the PWPA.....5-27

Table 5B-6: Estimated Water Savings from Changes in Crop Type by County in the PWPA5-28

Table 5B-7: Estimated Water Savings from Advances in Plant Breeding by County in the PWPA5-29

Table 5B-8: Estimated Water Savings from the Recommended Combination by County5-30

Table 5B-9: Estimated Cost for the Recommended Combination by County in the PWPA.....5-31

Table 5B-10: Estimated Water Savings from Weather Modification (Precipitation Enhancement) by
County in the PWPA.....5-32

Table 5B-11: Estimated Costs of Irrigation Wells in the PWPA.....5-33

Table 5B-12: Water Users in the PWPA Required to Prepare Water Conservation Plans.....5-34

Table 5C-1: Summary of Demands, Supplies, and Projected Needs for CRMWA.....5-37

Table 5C-2: Recommended Water Management Strategies for CRMWA (ac-ft/yr).....5-41

Table 5C-3: Summary of Costs for CRMWA’s Recommended Strategies5-41

Table 5C-4: Summary of Demands, Supplies, and Projected Needs for Amarillo5-42

Table 5C-5: Recommended Water Management Strategies for Amarillo (ac-ft/yr)5-48

Table 5C-6: Summary of Costs for Recommended Strategies for Amarillo5-48

Table 5C-7: Summary of Demands, Supplies and Needs for the City of Borger5-49

Table 5C-8: Recommended Strategies for Borger (ac-ft/yr)5-51

Table 5C-9: Summary of Costs for Recommended Strategies for Borger.....5-51

Table 5C-10: Summary of Demands, Supplies, and Needs for the City of Cactus5-52

Table 5D-41: Recommended Water Strategies for Potter County Manufacturing (ac-ft/yr).....5-115

Table 5D-42: Potter County Water Management Plan.....5-116

Table 5D-43: Unmet Water Needs in Potter County (ac-ft/yr).....5-116

Table 5D-44: Recommended Water Strategies for Canyon (ac-ft/yr)5-118

Table 5D-45: Recommended Water Strategies for Lake Tanglewood (ac-ft/yr)5-120

Table 5D-46: Recommended Water Strategies for Randall County-Other (ac-ft/yr)5-121

Table 5D-47: Recommended Water Strategies for Randall County Manufacturing (ac-ft/yr)5-123

Table 5D-48: Randall County Water Management Plan.....5-123

Table 5D-49: Roberts County Water Management Plan5-124

Table 5D-50: Sherman County Water Management Plan5-125

Table 5D-51: Recommended Water Strategies for Wheeler (ac-ft/yr).....5-127

Table 5D-52: Wheeler County Water Management Plan5-128

Table 6-1: Key Water Quality Parameters by Water Management Strategy Type.....6-3

Table 7-1: Drought of Records for PWPA Reservoirs.....7-3

Table 7-2: Type of Trigger Condition for Entities with Drought Contingency Plans7-9

Table 7-3: Existing Emergency Interconnects to Major Water Facilities in the PWPA.....7-10

Table 7-4: Potential Emergency Interconnects to Major Water Facilities in the PWPA.....7-11

Table 7-5: Emergency Responses to Local Drought Conditions in the PWPA.7-14

Table 7-6: Lake Meredith Drought Triggers and Actions7-18

Table 7-7: Greenbelt Reservoir Drought Triggers and Actions7-19

Table 7-8: Palo Duro Reservoir Drought Triggers and Actions7-19

Table 7-9: Drought Severity Classification7-20

Table 10-1: Panhandle Water Planning Group - Voting Members10-2

Table 10-2: Panhandle Water Planning Group Other Key Stakeholders10-3

Table 11-1: Changes in Projected Demands from the 2011 Plan to the 2016 Plan by Use Type11-3

Table 11-2: Changes in Projected Irrigation Demands from the 2011 Plan to the 2016 Plan.....11-4

Table 11-3: Change in Groundwater Availability from the 2011 Plan to 2016 Plan11-7

Table 11-4: Changes in Dockum Aquifer Supply by County from the 2011 Plan to 2016 Plan.....11-7

Table 11-5: Projected Change in Surface Water Supply from the 2011 to 2016 Plan in 2060.....11-9

Table 11-6: Entities with Significant Change in Supply (2060) for the 2016 Plan.....11-10

Table 11-7: Entities with New Needs or No Need for the 2016 Plan.....11-11

Table 11-8: New Recommended Water Management Strategies in the 2016 Plan.....11-12

Table 11-9: Wholesale Water Provider Strategies in the 2011 and 2016 Plan.....11-13

Table 11-10: New Alternate Water Management Strategies11-14

Table 11-11: Strategies No Longer Considered in the 2016 Plan11-15

List of Figures

Figure 1-1: Panhandle Water Planning Area..... 1-2

Figure 1-2: 2010 and 2070 PWPA Population Distribution..... 1-7

Figure 1-3: Ground Water Conservation Districts and Management Areas in PWPA..... 1-14

Figure 1-4: Major Aquifers in the PWPA 1-16

Figure 1-5: Minor Aquifers in the PWPA..... 1-17

Figure 1-6: Surface Water Features in the PWPA 1-24

Figure 1-7: Natural Regions in the PWPA 1-38

Figure 1-8: Regional Vegetation in the PWPA 1-40

Figure 1-9: Regional Geology of the PWPA..... 1-43

Figure 1-10: Regional Soils of the PWPA..... 1-45

Figure 2-1: PWPA Population by County 2-4

Figure 2-2: Total Water Use for PWPA from 2010 to 2070 2-5

Figure 2-3: Total Projected Water Demand by County..... 2-6

Figure 2-4: Water Demand by Use Type 2-7

Figure 2-5: Projected Municipal Water Demand in the PWPA..... 2-8

Figure 2-6: Projected Municipal Water Demand by County 2-9

Figure 2-7: Projected Industrial Water Demand by County 2-11

Figure 2-8: Projected Manufacturing Water Use in the PWPA..... 2-10

Figure 2-9: Projected Steam Power Water Use in the PWPA 2-12

Figure 2-10: Projected Mining Water Use in the PWPA 2-13

Figure 2-11: Projected Agricultural Water Use by County..... 2-15

Figure 2-12: Projected Water Use for Irrigation in the PWPA 2-16

Figure 2-13: Projected Livestock Water Demands for PWPA 2-17

Figure 2-14: Projected Livestock Water Demands by Animal Category 2-18

Figure 3-1: Major and Minor Aquifers 3-4

Figure 3-2: Modeled Available Groundwater in the Ogallala Aquifer (ac-ft)..... 3-7

Figure 3-3: Surface Water Supplies in PWPA..... 3-11

Figure 3-4: Conditional Reliability Assessment for Lake Meredith with No Diversions..... 3-14

Figure 3-5: Summary of Available Supplies in PWPA..... 3-25

Figure 3.6: Ogallala Simulated Saturated Thickness Based on Modeled Available Groundwater 3-27

Figure 3-7: Irrigation and Municipal Pumping Cells in Ogallala Aquifer 3-29

Figure 3-8: Unallocated Supplies 3-35

Figure 4-1: PWPA Supplies and Demands (acre-feet/year) 4-2

Figure 4-2: Needs in Region A for Planning Period 2020 to 2070..... 4-3

Figure 7-1: Historical Stream flows in the Canadian and Red River Basins 7-4

Figure 7-2: Historical Annual Precipitation for the High Plains of Texas 7-5

Figure 7-3: Palmer Drought Severity Indices for the High Plains of Texas..... 7-6

Figure 7-4: Comparison of Lake Meredith Lake Levels to Flows at Logan Gage..... 7-7

Figure 7-5: Entities Considered for Emergency Supplies 7-13

Figure 8-1: Ecologically Significant River and Stream Segments in the PWPA 8-4

Figure 11-1: Comparison of PWPA Population 11-2

Figure 11-2: Comparison of PWPA Water Demand 11-2

Figure 11-3: Comparison of Projected Per Capita Use and Municipal Demand 11-5

Figure 11-4: Comparison of Groundwater Availability from the 2011 and 2016 Plans.....11-7
 Figure 11-5: Total Groundwater Difference in Availability11-8
 Figure 11-6: Comparison of Surface Water Availability in the 2011 and 2016 Plans 11-9
 Figure 11-7: 2060 Need by Use Type in the 2011 and 2016 Plans11-12

ATTACHMENTS

Attachment 2-1 TWDB Population and Demand Projections
 Attachment 3-1 TWDB Existing Water Supplies
 Attachment 4-1 TWDB Water Needs Data Tables
 Attachment 5-1 Water Management Strategies Considered and Evaluated
 Attachment 5-2 Strategy Evaluation Matrix
 Attachment 5-3 Quantified Environmental Impact Matrix
 Attachment 7-1 Source, Source Manager and DCP Triggers

APPENDICES

Appendix A Bibliography
 Appendix B 2016 Panhandle Regional Water Plan Task 2 Report: Agricultural Water Demand Projections
 Appendix C WAM Analyses for Region A Water Availability
 Appendix D 2016 Panhandle Regional Water Plan Task 5 Report: Agricultural Water Management Strategies
 Appendix E Cost Estimates
 Appendix F Consistency Matrix
 Appendix G Socio-economic Impacts
 Appendix H DB17 Tables
